How to order footwear.

Orders are placed by email. Send the model number, the colour and the size run you need, and we confirm pricing, availability and lead time by return.

1. **Give the model number**
   Each style in this catalogue carries one. Quote it with the colour name shown beside the swatch.

2. **Give the size run**
   Sizes are paired, 35/36 through 47/48, and vary by model. Tell us how many pairs of each.

3. **Say where they will be worn**
   Theatre, ward, laboratory and cleanroom have different requirements; we will flag anything unsuitable before you order.

4. **We quote individually**
   Include your practice or facility name and the delivery address, and we return a written quotation.

Care. These are EVA shoes: rinse with water and soap, wipe with a cloth, or machine wash and dry at room temperature. Keep them away from solvents and direct heat. Autoclavable models are marked as such in the catalogue.

Tell us what you need and we will quote.
