How to order medical wear.

Orders are placed by email. Send the style numbers, the sizes and the quantities you need, and we confirm pricing, availability and lead time by return.

1. **Give the style number**
   Every garment in this catalogue carries one, printed beside it. Quote it exactly — a letter changes the cut.

2. **Give the sizes and the split**
   Most styles run XS to 4XL. Tell us how many of each size, and whether you want men's, women's or unisex cuts.

3. **Tell us about embroidery**
   Practice names and logos can be embroidered. Send us the artwork and tell us where on the garment it should sit.

4. **We quote individually**
   Include your practice, hospital or laboratory name and the delivery address, and we return a written quotation.

Colour and fabric. Where a style is listed in several colours, the colour codes beside it are the ones to quote. Fabric compositions are printed with each style; if you need a specific weight or a chlorine-resistant finish, say so and we will confirm what is available before you commit.

Tell us what you need and we will quote.
